FREDERIC LIETAER
CEO ELIET EUROPE

ELIET A COMPANY WITH A VISION

Are you responsible for keeping gardens, parks or forests well maintained ? Looking for straightforward yet reliable machines, designed with intelligence and understanding and built to be hardwearing ? For over 20 years, Eliet has been the partner you need to turn untamed nature into your own small corner of paradise.

My father and founder of ELIET, Emiel Lietaer is part of a family which for eight generations has been in the blacksmith business. A creative spirit who makes a point of being close to his customers, Emiel has leveraged his vast knowledge of materials and extensive sales experience to secure Eliet's reputation: A leading-edge company in the garden machinery community.

For over 20 years ELIET has been producing robust machines that help you bring the fascinating beauty of nature to the fore. We focus on three main areas:

- Garden waste treatment
- Landscaping and maintenance
- Waste clearance

We listen very closely to people like you. That enables us to craft effective tools to tackle your problems. We make machines that can move mountains, built from wear-resistant, durable parts. How do we do it ? Through sustained innovation and a permanent quest for new applications.

ELIET GREEN WASTE

BETTER CHIPS FOR FASTER COMPOSTING

Increasingly, your garden is an extension of your home, characterised by cosy corners, haughty hedges, fragrant flower beds and sheltering tree features.

It takes a great deal of trimming to highlight certain forms or increase the variety of flowers. Woody prunings and other leafy waste are perfect compost ingredients. And recycling waste only increases the beauty of your garden. Good maintenance demands the right know-how and the right tools. To this end, ELIET has invested in the research and development of its own shredding system - the Chopping principle - offering a host of unprecedented options. ELIET has also invented the mobile chipper. It's a touch of genius: by adding a wheel drive to a chipper we make the lives of landscape contractors so much more comfortable.

ELIET chippers combine flexibility with perfect performance, tailored to private and professional users alike.

ELIET CHIPPERS HOME

(collective branch capacity - m³ chippings per hour/engine)

NEO

30mm - 0,6m³/hr - 4.0 HP

PRIMO

35mm - 0,8m³/hr - 4 HP

MAESTRO

40mm - 1,2m³/hr - 5,5 HP

MINOR

45mm - 1,6m³/hr - 6,5 HP

MAJOR

55mm - 2,4m³/hr - 9 HP

ELIET CHOPPING PRINCIPLE™

The patented shredding system cuts with the wood grain, absorbing less engine power. The blade system has a wide cutting surface and is capable of taking any green material without difficulty.

BIOTECH™ CHIPS

The way of cutting makes sure the wood chips are thoroughly crushed. The high cutting frequency in turn ensures that both branch and leaf are chopped very finely. As a consequence, the Chopping principle™ produces chips that are better suited to composting.

ASSETS:

- Compact construction
- Low consumption
- Reduced noise emission
- Low-maintenance
- Long service life

ELIET CHIPPERS PROFESSIONAL

(collective branch capacity - m³ chips per hour/engine)

ELIET SYSTEMS™

PREFERRED PARTNERS

PROF IV

80mm - 3m³/hr - 13 HP

ULTRAPROF

140mm - 8m³/hr - 24 HP

MEGAPROF

180mm - 10m³/hr - 31 HP

ELIET LAWN CARE

LANDSCAPING FIRST AND THEN MAINTENANCE

A healthy, full, resilient lawn: The dream of every gardener. So what's the secret of a healthy turf mat? A high density of grass plants per square meter. That is only possible in conjunction with proper turf landscaping and maintenance. We have a host of specialist machines to help you achieve this and to assist you in turf management.

ELIET seeders prepare your seedbed perfectly, ensuring that your lawn will grow just as you want it to. Keep the quality of your soil high: together with well-balanced fertilisation, aeration will ensure ideal air and water permeability is achieved.

ELIET adopts a zero-tolerance policy when it comes to parasites. Dethatching is an efficient way of combating moss, weeds, thatch, fungi and moulds. It's essential, bearing in mind the constant threat hanging over the health of your lawn.

ELIET EDGE CUTTER
(blade diameter / engine)

ELIET EDGE STYLER
(cuts/min.)

ELIET VERTICUTTER
(working width / engine)

KS 240 STD
240mm - 4 HP

KS 300 PRO
300mm - 5,5 HP

ELIET EDGE STYLER
1000 cycl/min.

E 401
400mm - 4 HP

E 501
500mm - 5,5 HP

ELIET SYSTEMS™

PERMANENTLY SHARP BLADES™ FOR A GORGEOUS LAWN

Every Eliet verticutter comes as standard with Permanently Sharp Blades™. The blades are self-sharpening, thanks to ELIET's revolutionary concept, which means they retain their sharp cutting edge during their entire working life. You can continue to use them until they are completely worn down without compromising on cutting performance because these blades stay sharp at all times. Our unique ELIET blades have a 100-hour knife life.

You'll boost the resistance of an older lawn by overseeding - injecting it with new grass seed. This rejuvenating cure will increase grass density and generate greater diversity of grass types.

ELIET's machines produce the right conditions for your turf grass plants to grow and add the finishing touch to your lawn. Perfect lawn edges are child's play with ELIET. Just take a look at a garden maintained with ELIET machines and convince yourself.

ELIET COMBI-SEEDER
(work width / seed box capacity)

ELIET OVERSEEDER
(blade spacing / work width)

E 750
750mm - 9 HP

GZC 750
720mm - 57 L

GZC 1000
1000mm - 86 L

DZC 750
30mm - 750 mm

ELIET WASTE CLEARANCE

CLEAN AND TIDY

In the autumn, gardens, parks and planted strips along roads are covered in a blanket of colour. It can be beautiful, but it is also a gardener's nightmare. The professional only sees a garden with piles of leaves and an untidy tangle of waste that can threaten road safety and block sewers.

Eliet cannot stop the leaves from falling. But the ELIET leaf blowers and leaf vacs do make keeping things clean and tidy quite a bit easier. These machines are not only ideal in the autumn but they also deliver great work in winter, spring and summer too, blowing away and sucking up straw, prunings, green waste material, sand and even soil.

Their high quality and durable construction mean that Eliet debris blowers are always as reliable and dependable as you've come to expect them to be. Eliet's engineers design and build compact, practical machines for both the residential and professional markets. These highly manoeuvrable and localised cyclone generators blow leaves wherever you want them as fast as you like.

ELIET LEAF BLOWER HOME
(air volume - impeller diameter)

BL 360

50m³/min. - 360mm

BL 450 E

108m³/min. - 450mm

The Eliet Truckloader heralds a new generation of debris vacuums from ELIET. The Truckloader is the cream of the debris vacuums crop, thanks to its compact and rugged construction, ergonomic handle, sound-damping impeller wall and much, much more. For more information, please contact your Dealer or visit us at www.eliet.eu.

ELIET SYSTEMS™

VENTURY-JET™

The Ventury-Jet principle accelerates the airflow underneath the nozzle to ensure wet, sticky leaves are blown away without any extra effort.

The low pressure carries away any loose leaves underneath the blower nozzle which are normally out of the range of the airflow.

ELIET **LEAF BLOWER/LEAF VAC** PROFESSIONAL
(air volume - impeller diameter)

BL 450 EZR

108m³/min. - 450mm

108m³/min. - 450mm

ELIET CREATIVE LAB

INNOVATION

You demand the best, most advanced and most efficient machinery available on the market.

Fair enough ! That's why at ELIET our designers are always working on tomorrow's machines. Our R&D department has but one goal: Greater knowledge and know-how in gardening.

Driven by healthy curiosity, a well-knit team of engineers and designers improve existing models and test new prototypes. The loose structure of the ELIET Creative Lab is ideal for ripening visions into creative ideas in informal consultation.

The result is a rich harvest of strong, exclusive and often patented systems. After an extensive round of testing, they are added to the range, ready to show their qualities in the real world. Our impressive roll of honour proves that our involvement goes beyond words:

- 1994: Golden Spike at the Agribex international agricultural show in Brussels, Belgium
- 1996: Bronze Spike at the Agribex international agricultural show in Brussels, Belgium
- 1998: Innovation Medal at Galabau Nuremburg, Germany
- 1999: Richard Hubert award Papendal Demo Days, Netherlands
- 2002: Innovation Medal Omnigreen, Belgium
- 2002: Innovation Medal at Galabau Nuremburg, Germany
- 2005: Golden Buxus at the Agribex international agricultural show in Brussels, Belgium
- 2007: Silver innovation medal at the Demopark exhibition in Eisenach, Germany

DISTINCTIONS

Eliet will continue to create machines that simplify garden work even further. We aim to be the benchmark brand in green waste processing, lawn care and waste clearance.

Your opinions and experiences are the ideal seedbed for us to develop new insights. They are the seeds from which we will continue to harvest machines that solve the problems no one else does. A broader, deeper and more attractive range of products enables us to reinforce our position on the market.

The recent expansion of the ELIET Machine Works in Otegem (Belgium) provides sufficient room for continued growth in the future to guarantee our high level of service to dealers.

State-of-the-art production technologies mean we can respond to your demands with speed and flexibility. That's how ELIET supports the growing success of its machines. Awareness of your comfort, and the comfort of the ELIET workforce, is part of our integral quality philosophy. Sound service, reliable machines and personal contact: by working together we will get the best out of every garden, park or forest.

The ELIET Creative Lab is working hard today to develop the machines of tomorrow. Cutting edge research into new techniques and improved safety are our watchwords. ELIET's partnerships with universities will also begin to mature soon. The benefits will be incorporated into ELIET's products.

All these efforts mean that ELIET's customers can continue to expect to benefit from the added value of our products well into the future.
